# **DETAILED ACTION**

## Status of the Application

Receipt of Applicant's Response, Arguments/Remarks, the Terminal Disclaimer and request for extension of time (1 month-granted), all filed 04/25/05 is acknowledged.

The statutory and non-statutory Double Patenting Rejections have been withdrawn.

Claims 26-34, 36 and 37 are pending. Claims 26-34, 36 and 37 are allowed.

#### Terminal Disclaimer

The terminal disclaimer filed on 04/25/05 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of Patent No. 6,432,383 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### Allowable Subject Matter

Claims 26-34, 36 and 37 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance are that Applicant's submission of a Terminal Disclaimer filed 04/25/05 has obviated the non-statutory Double Patenting rejection of claims 26-34, 36 and 37 in the non-final Office Action filed 12/20/04. Additionally, Applicant's

arguments filed 04/25/05 with respect to the statutory (35 U.S.C. 101) Double Patenting rejection of claims 26, 27 and 29 were found persuasive. The instant claim limitation 'while resisting substantial inhalation of said insulin' is a limitation, which is not inherent in prior Patent No. 6,432,3838. Accordingly, the instant invention is rendered patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
